

Development Standards

Database Design

Naming Convention

- **Use lowercase:** Will help on speed typing, avoid mistakes due to case sensitivity e.t.c
- **No space - use underscore instead**
- **No numbers in name only alpha English characters**
- **Valid understandable names** like blog, ecommerce e.t.c but not like project, james, e.t.c
- **Name should be self explanatory**
- **Names should not be more than 64 characters.**
- **Avoid prefix**
